Experience

Data Analyst

RWS Group • Addis Ababa
04/2020 - 04/2024
- Wrote SQL queries to extract and label the data for specified categories that would allow analysis.
- Used Excel in charting and underlining of data points to make the trends more comprehensible.
- Data labeling and cleaning using Python in machine learning projects.
- Power BI-created interactive dashboards with annotations to highlight key insights.

BI Developer (Project-based)

Toloka • Addis Ababa
03/2022 - 04/2023
- Preprocessed and labeled datasets using Python, which are used to train AI models for business forecasting.
- Designed SQL queries to fetch business data for AI training.
- Conducted research aimed at identifying a number of key features and trends that would subsequently be relevant for the accuracy of the AI model in business analysis.
- Prepared and analyzed data in Excel for reporting to support AI model training and validation.

Skills

SQL, Power BI, Excel, Apache Spark, R, Google Analytics, Tableau, Python, MySQL, Salesforce, Analysis Skills, Communication skills, Teamwork

---
