CERTIFICATIONS & TRAINING:

CompTIA Security+
CompTIA Network+
CompTIA CySA+ *(In Progress)*

TryHackMe / Hack The Box Labs –
Practical hands-on cybersecurity
exercises

TECHNICAL SKILLS:

Soft Skills: Problem-Solving, Analytical
Thinking, Communication, Incident
Response, Threat Detection, Risk
Assessment

Operating Systems: Kali Linux,
Raspberry Pi OS, Windows

Networking: Routing, Switching, VLANs,
DHCP, TCP/IP, Network Segmentation

Security Tools: Wireshark, Nmap,
Metasploit, Access Control Lists (ACLs)

EDUCATION:

Osceola Technical School Kissimmee
FL *(2024- 2025)*

Completed coursework in Networking
and Security; performed hands-on labs
configuring Cisco routers and switches,
implementing VLANs, ACLs, and basic
security hardening measures.

LANGUAGES

English – Fluent
Creole – Fluent

PROFESSIONAL SUMMARY

Aspiring Cybersecurity Analyst with hands-on experience from school labs
and platforms like Hack The Box and TryHackMe. Skilled in configuring Cisco
routers and switches, VLANs, ACLs, and analyzing network traffic using
Wireshark. Background in physical security with knowledge of threat
detection and risk assessment. Certified in CompTIA Security+ and Network+,
with CySA+ in progress.

PROJECTS:

Network Segmentation & Security Hardening *(Cisco Packet Tracer – Simulated)*

- Designed and implemented VLAN configurations with inter-VLAN
  routing and Access Control Lists (ACLs) to segment traffic, enforce
  security policies, and restrict unauthorized communication; gained
  experience in network architecture design, device configuration, and
  defense-in-depth strategies.

Packet Capture & Threat Analysis *(Wireshark)*

- Captured, filtered, and analyzed network traffic to identify
  vulnerabilities and abnormal patterns, applying findings to improve
  threat detection and monitoring processes.

PROFESSIONAL EXPERIENCE:

Allied Universal – Security Officer | *2022 – Present*

- Conducted risk assessments and identified vulnerabilities in access
  control, surveillance coverage, and incident reporting processes,
  recommending improvements to strengthen security posture.

- Created and maintained detailed incident reports, access logs, and
  investigative documentation in alignment with compliance, audit, and
  data protection requirements.

- Communicated security alerts, updates, and investigative findings to
  management and cross-functional teams during incidents.

- Collaborated with law enforcement, emergency services, and internal
  security teams to resolve critical incidents and implement preventive
  measures.

- Applied situational awareness and threat analysis techniques to detect
  suspicious activity, analyze behavior patterns, and prevent breaches.
